

DaDo: Tax documents, finally without the paperwork

! Problem: Thousands of papers, thousands of manual steps. Traditional processes for the workflow of tax documents between employee and employer carry the risk of lost documents and the certainty of lost time. Moreover, this process repeats every year, making it a silent killer of productivity.

✓ Solution: DaDo enables safe, rapid, and efficient digitalisation of the entire process in compliance with both **Slovak and Czech legislation**. The solution smartly connects the payroll department with employees, and users can access it from the comfort of the familiar **SAP SuccessFactors** or **SAP HCM** interface.

Process:

Included forms:

- ✔ Declaration for the application of the non-taxable part of the tax base (payroll specialist)
- ✔ Request for the execution of the annual settlement of income tax advances (payroll specialist)
- ✔ Change of declaration for the application of the non-taxable part of the tax base (employee)

Result:

- 👍 DaDo streamlines all phases of tax document processing and managing attachments from their creation to their registration in the payroll system.

The payroll department gains a clear tool for automated monitoring of process statuses with notifications about upcoming deadlines. Built-in controls and hints simplify form filling, thereby minimising errors.

This comprehensive solution fully modernises the entire process for the 21st century.
